

## Bus Directions for the Texas A&M Physics Show

### Bus Option #2: Hogg Street

Buses enter from University Drive, turn right onto Houston Street, and then left onto Hogg Street to drop off passengers near the end of the street. After unloading, buses continue by turning left onto Asbury Street and exit the area to eventually park along New Main Drive. Passengers should follow the walking route from Hogg Street — turning left onto Asbury Street, right onto New Street, and then left onto Ireland Street — to reach the Mitchell Physics and Astronomy buildings.

See page 2 for bus parking details.

After buses unload passengers, they should enter from Texas Avenue and park along New Main Drive.
